

# Cleaner Air for Better Living

**At Village at Belmar, health & safety are our top priority!** With the recent outbreak and spread of Covid-19, we have made it our top priority to integrate some of the best state-of-the-art air purification technology into our community to help reduce the risk of outbreaks and infections. The installation of the **Auto-Cleaning Needlepoint Bipolar Ionization (NPBI) System** in all of our public areas and assisted living and memory care apartments helps us sustain an exceptionally virus-resistant, eco-conscious environment throughout the community providing added peace of mind for our residents, their families and our associates.

**ELEVATING Senior Living**

7825 W. Alameda Ave  
Lakewood, CO 80226

During these incredibly uncertain times, knowing we have taken measures beyond compare to provide a clean, healthy community makes Village at Belmar the perfect choice.

## Benefits of the NPBI Clean Air System...

- Clean indoor air that is safe, healthy and virtually virus free without introducing any harmful disinfectants, aerosols or by-products
- Proven 99.4% effective at eliminating airborne particulates and pathogens that cause COVID-19, Norovirus, Influenzas and more!\*
- Significantly minimizes airborne allergens, bacteria, mold and dust throughout the community
- Mitigates airborne odors
- Environmentally friendly system that reduces our community's overall carbon footprint and lowers energy consumption by nearly 30%
